Professional Summary:

Strategic Frontend Developer with 4.5+ years of expertise in React.js and MUI, architecting scalable, cross-platform UI/UX solutions. Currently expanding into Full Stack development to deliver end-to-end technical excellence and drive seamless product integration. Focused on leveraging modern frontend architectures to accelerate user growth and operational scalability in product-led environments.

Skills:

Frontend Technologies: React js, Next js, JavaScript, Typescript

Backend Technologies: Node js with Express js

Mobile Development: React Native with React Native CLI and Expo

State Management: Redux, Redux Toolkit, Redux Saga, Zustand, TanStack Query

UI Frameworks: Material UI, Tailwind CSS, Styled Components

API Integrations: Rest API

Hosting and Deployments: Firebase, Vercel, Render

Version Control: Git, GitHub

Databases and ORMs: Postgres, MongoDB, Sequelize, Prisma

Experience:

M2P Fintech

June 2025 - Present

Solution Engineer

Full Time | Hyderabad, India

- Spearheaded development and delivery of new features for VKYC and OCAC projects, resolving 100+ critical production incidents while maintaining 100% uptime and zero unplanned downtime.
- Delivered 20+ change requests across VKYC and OCAC modules with consistently on-time turnaround, significantly enhancing system stability and user experience across fintech solutions.
- Led troubleshooting and performance optimization initiatives that sustained 100% system uptime, driving measurable improvements in service reliability.

Solaiera.ai

March 2025 - May 2025

React Developer

Consultant | Hyderabad, India

- Translated wireframes into reusable, scalable React JS components for Dost AI, a product designed to enhance daily routines for children with autism
- Led design-to-code implementation, ensuring seamless user experience and efficient front-end architecture
- Deployed applications on Google Cloud Platform (GCP), optimizing performance and scalability
- Developed and integrated APIs using GCP services to enable robust backend connectivity and data flow

Kapil Technologies Pvt Ltd

May 2023 - August 2024

Associate Consultant(React js)

Full Time | Hyderabad, India

- Spearheaded the transformation of the company's static website into an interactive platform, enabling file uploads via the admin portal and real-time application status tracking
- Developed a robust admin panel to manage media files, update career portal data, and monitor website traffic through custom API integrations, enhancing operational efficiency and data visibility

VMax e-Solution Pvt Ltd

January 2023 - March 2023

Frontend Developer

Full Time | Hyderabad, India

- Transformed UI wireframes into scalable, reusable React components, enhancing development efficiency and code maintainability
- Led API integration for the ProhealthI Admin Panel project, ensuring seamless functionality and on-time deployment by EOD
- Involved in client requirement meetings to align project scope, achieving 100% on-time delivery and exceeding client expectations

Talentkind Solutions LLP

January 2021 - September 2022

Jr. Frontend Developer

Full Time | Hyderabad, India

- Transformed UI wireframes into scalable, reusable React components, enhancing development efficiency and code maintainability
- Led API integration across Talentkind's Admin, Talent, Trainer, and Employer modules, ensuring smooth functionality and on-time EOD deployment.
- Involved in client requirement meetings to align project scope, achieving 100% on-time delivery and exceeding client expectations
