Hyderabad, India | **LinkedIn:** linkedin.com/in/soumyabalamaala | **GitHub:** github.com/Soumya-Balamaala
Portfolio: soumyabalamaala.vercel.app

PROFESSIONAL SUMMARY

Strategic Frontend Developer with 4.5+ years of expertise in React.js and Material UI, architecting scalable, cross-platform UI/UX solutions across fintech, healthcare-tech, and enterprise product environments. Currently expanding into Full Stack development with Node.js and Express.js to deliver end-to-end technical excellence and drive seamless product integration. Skilled in translating wireframes into reusable, high-performance components, integrating REST APIs, and deploying applications on cloud platforms such as Google Cloud Platform, Firebase, and Vercel. Focused on leveraging modern frontend architectures and robust state management practices to accelerate user growth, system reliability, and operational scalability in product-led environments.

SKILLS

Frontend Technologies: React.js, Next.js, JavaScript, TypeScript
Backend Technologies: Node.js with Express.js
Mobile Development: React Native (React Native CLI & Expo)
State Management: Redux, Redux Toolkit, Redux Saga, Zustand, TanStack Query
UI Frameworks: Material UI, Tailwind CSS, Styled Components
API Integrations: REST API
Hosting & Deployment: Firebase, Vercel, Google Cloud Platform (GCP)
Version Control: Git, GitHub
Databases & ORMs: PostgreSQL, MongoDB, Sequelize, Prisma

PROFESSIONAL EXPERIENCE

EMPLOYER	JOB ROLE	PLACE	DURATION
M2P Fintech	Solution Engineer (Full Time)	Hyderabad, India	Jun 2025 – Present
Solaiera.ai	React Developer (Consultant)	Hyderabad, India	Mar 2025 – May 2025
Kapil Technologies Pvt Ltd	Associate Consultant (React JS)	Hyderabad, India	May 2023 – Aug 2024
VMax e-Solution Pvt Ltd	Frontend Developer	Hyderabad, India	Jan 2023 – Mar 2023
Talentkind Solutions LLP	Jr. Frontend Developer	Hyderabad, India	Jan 2021 – Sep 2022

EXPERIENCE SUMMARY

M2P Fintech — Solution Engineer, Full Time (Jun 2025 – Present)

Work Experience and Job Description:

Feature Delivery & Production Support:

- Spearheaded development and delivery of new features for VKYC and OCAC projects, resolving 100+ critical production incidents while maintaining 100% uptime and zero unplanned downtime
- Delivered 20+ change requests across VKYC and OCAC modules with consistently on-time turnaround, significantly enhancing system stability and user experience across fintech solutions
- Led troubleshooting and performance optimization initiatives that sustained 100% system uptime, driving measurable improvements in service reliability
- Earned consistent stakeholder satisfaction ratings through proactive incident resolution and clear communication during critical production issues

Solaiera.ai — React Developer, Consultant (Mar 2025 – May 2025)

Work Experience and Job Description:

Product Development & Cloud Deployment:

- Translated wireframes into reusable, scalable React JS components for Dost AI, a product designed to enhance daily routines for children with autism
- Led design-to-code implementation, ensuring a seamless user experience and efficient front-end architecture
- Deployed applications on Google Cloud Platform (GCP), optimizing performance and scalability
- Developed and integrated APIs using GCP services to enable robust backend connectivity and data flow
- Orchestrated seamless deployment pipelines for Dost AI, enhancing long-term scalability and maintainability of the product

Kapil Technologies Pvt Ltd — Associate Consultant (React JS), Full Time (May 2023 – Aug 2024)

Work Experience and Job Description:

Platform Transformation & Admin Tooling:

- Spearheaded the transformation of the company's static website into an interactive platform, enabling file uploads via the admin portal and real-time application status tracking
- Developed a robust admin panel to manage media files, update career portal data, and monitor website traffic through custom API integrations, enhancing operational efficiency and data visibility
- Converted the static website into a dynamic single-page application (SPA) with an integrated admin panel, optimizing business solution delivery and user engagement

VMax e-Solution Pvt Ltd — Frontend Developer, Full Time (Jan 2023 – Mar 2023)

Work Experience and Job Description:

React Development & Client Delivery:

- Transformed UI wireframes into scalable, reusable React components, enhancing development efficiency and code maintainability
- Led API integration for the ProhealthI Admin Panel project, ensuring seamless functionality and on-time deployment by end of day
- Participated in client requirement meetings to align project scope, achieving 100% on-time delivery and exceeding client expectations

Talentkind Solutions LLP — Jr. Frontend Developer, Full Time (Jan 2021 – Sep 2022)

Work Experience and Job Description:

React Development & Module Delivery:

- Transformed UI wireframes into scalable, reusable React components, enhancing development efficiency and code maintainability
- Led API integration across Talentkind's Admin, Talent, Trainer, and Employer modules, ensuring smooth functionality and on-time end-of-day deployment
- Delivered the Trainer, Talent, and Employer modules by converting UI wireframes into reusable React code and integrating APIs, accelerating product release cycles
- Participated in client requirement meetings to align project scope, achieving 100% on-time delivery and exceeding client expectations

PROJECTS

- My Portfolio — soumyabalamaala.vercel.app — personal portfolio showcasing frontend and full-stack projects
- M2P Fintech — VKYC & OCAC modules — production fintech features with 100% uptime and zero unplanned downtime
- Solaiera.ai — Dost AI — React-based product supporting daily routines for children with autism, deployed on GCP
- Kapil Technologies Pvt Ltd — static-to-SPA transformation with an integrated admin panel and custom API integrations
- VMax e-Solution Pvt Ltd — ProhealthI Admin Panel — React-based admin panel with full API integration
- Talentkind Solutions LLP — Talentkind.com — Admin, Talent, Trainer, and Employer modules built in React with integrated APIs
